

## The only VPN and proxy detection solution with 99.6% accuracy

Stop geo-fraud by detecting the most advanced location spoofing methods.

GeoGuard combats geo-fraud without impacting legitimate users.

### Hollywood Approved

Meet rights owner requirements to protect premium content.

### Protect streaming revenues

Radically reduce geo-piracy and account fraud with unrivalled VPN and proxy detection.

### Reduce costs

Eliminate illegal viewing to free up infrastructure capacity and slash CDN costs.

## Key Features

### Fraudulent IP address database

Provides a dynamic, continuously updated list of IP addresses identified as fraudulent.

### Advanced location spoofing

Detects advanced location spoofing techniques such as proxy over VPN and residential IP hijacking.

### Real-time rules engine

Recognizes methods of deception used to mask the true nature of fraudulent IP addresses.

### Predict emerging threats

Leverages GeoGuard's machine learning and human intelligence, to predict and counter emerging threats.

### Device-agnostic

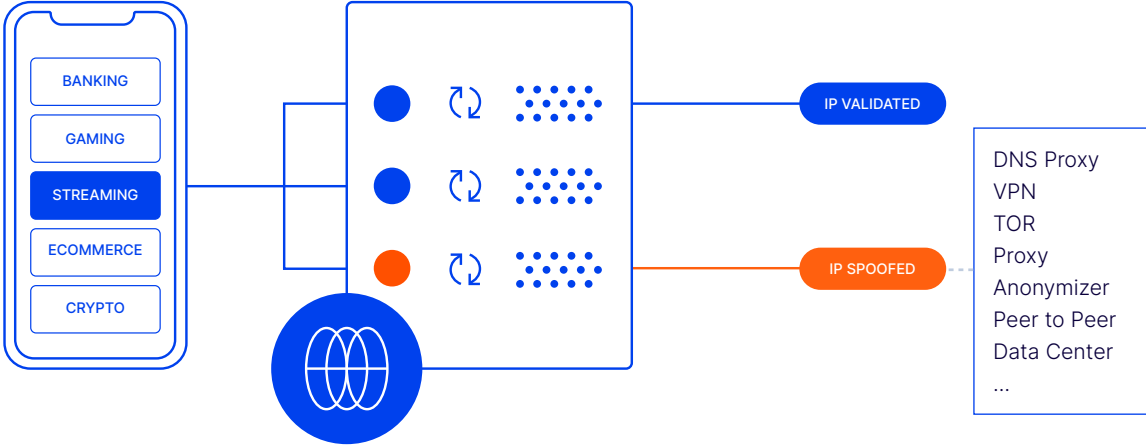

A customizable, spoof-proof geolocation solution that works with a wide range of devices and user interfaces.

### Hollywood approved

Approved and recommended by major rights owners for film, TV and live sports.

A multi-layered fraud protection solution against VPNs, proxies, peer-to-peer networks and other types of data manipulation.

**99.6%**  
success rate for  
VPN detection

**10 billion+**  
requests per month

**300 million+**  
unique streaming  
users per month

GeoGuard makes it simple to stop fraud now.

**Easy to implement**

GeoGuard is available as a locally hosted database, a cloud-hosted solution or via an API.

**Seamlessly integrated with leading CDNs**

GeoGuard is seamlessly integrated with leading content delivery networks (CDNs) including Akamai and Amazon CloudFront, enabling you to simply “turn on” VPN and proxy detection.

Leading organizations trust GeoGuard to stop location fraud.
